1. Road maps - Germany (Berlin area), Russia (St. Petersburg)
2. Notebook with handwritten entries (Russian and English)
  - Partial translation ongoing
  - Contains technical diagrams and calculations
  - References to 'resonance patterns' and 'crystalline structures'
3. Gas station receipts - Pennsylvania, New Jersey  
(October-December 2024) *Anton = Berlin contact*
4. Fast food receipts - various locations *Helped him research*
5. Camping supply receipt - REI, dated November 2024 *Notebook = his life's work*

**Items NOT Recovered:****WHAT I KNOW:**

Berlin = key to everything  
Anton helped him research  
That notebook = PROOF  
1940s lab photo = SOURCE

The crystal is OLD  
Not modern tech  
From that lab?

Need to go to Berlin  
Find Anton  
Find that lab

**WITNESS STATEMENTS (SELECTED)**

---

**Mall Security Guard Mark Stevens:**

When I asked what was in the box, he looked at me like I'd asked him to hand over his child. He said, and I remember this exactly, 'Something that should have stayed buried.' I thought he was being dramatic. I should have detained him.

**Food Court Employee Ashley Martinez:**

I saw him open it. There was this glow, like... I can't describe it. Red but not like fire. Cold red. He whispered something in another language and then tried to slam it shut, but he couldn't get the lid to close. Then people started screaming.

**Shopper David Kimball:**

I was maybe 20 feet away when it started. The people closest to him... they changed. Their faces went blank and then they just attacked whoever was near them. And him, that Russian guy, he was trying to get the box closed, but his hands were shaking so badly. When he finally got it shut and started running, his shadow... I know how this sounds, but his shadow didn't match his movements.

*I was 50 feet away*  
*Shopping for Christmas*  
*If I'd been faster...*

**SWAT Team Member (name withheld):**

By the time we got there, it was like a war zone. We had to use lethal force on three individuals who wouldn't stop attacking people even after multiple warnings. They showed no response to pain, no fear. Whatever that box did to them... they weren't human anymore.

## CURRENT INVESTIGATION STATUS

### Active Measures:

1. Border Alerts: Subject flagged at all U.S. exit ports
2. Financial Monitoring: All known accounts under surveillance
3. International Coordination: Interpol Red Notice prepared
4. German Cooperation: BKA investigating Berlin contacts
5. Russian Liaison: Minimal cooperation from authorities
6. Public Alert: Subject added to FBI Most Wanted (Jan 5, 2025)

### Investigative Challenges:

- Subject demonstrated ability to operate off-grid
- Possible use of aliases and false identification
- May have fled country before alert systems activated
- Unknown nature and capabilities of object in possession
- Uncertain if subject acted alone
- Limited international cooperation (particularly Russia)

## THREAT ASSESSMENT

### WHAT I SAW (NOT IN OFFICIAL REPORT):

The crystal didn't just glow. The light was WRONG. Shadows in impossible directions. Air VIBRATED. Felt it in my bones. Volkov wasn't scared - he was REVERENT. He spoke Russian. I don't speak Russian. But I UNDERSTOOD: 'They thought they could hide you. They were wrong.' Then screaming. From the crystal? From us? I didn't report this. They'd think I'm crazy. But Sparky believes me.

- Highly intelligent, potentially unstable
- Deep conspiracy theory immersion
- Obsessive personality traits evident
- Unpredictable due to uncertain mental state

*That thing was NOT from any lab I know*

### Public Safety Concerns:

- Remains at large with unknown weapon
- High potential for additional incidents
- May target populated areas
- Unpredictable timeline and target selection

### Recommended Precautions:

- Approach as ARMED and EXTREMELY DANGEROUS
- Do not attempt apprehension without specialized support
- Hazmat protocols required for any encounter
- If object located, DO NOT open or handle
- Immediate area evacuation recommended

**FILE STATUS:**

ACTIVE INVESTIGATION

**LAST UPDATED:**

January 8, 2025

**NEXT REVIEW:**

January 15, 2025

**WHAT I'M ACTUALLY GOING TO DO:**

1. Stanford: Need to know 2010 incident. FOIA too slow. Going myself.  
Chen, Okonkwo will talk when they see I'm serious.
2. Berlin: Trail leads there. Need to find Anton. Kreuzberg Slavic Association.
3. The crystal: Not physics - HISTORY. Where from? Who made it? When?  
Volkov: 'They thought they could hide you' - hide from WHAT?
4. Accept this isn't normal FBI work. What I saw... not in the manual.
5. When I find Volkov, it won't be an arrest. It'll be something final.

I was supposed to be on leave. Psych eval pending. But how can I rest?  
Those people see it in nightmares. So do I. This isn't over.
